

First Canadian Place - Elevator Interiors

Location Toronto, Ontario
Designer / Architect Bregman & Hamann Architects
Duration March 1997 - December 1998

Scope - Soheil Mosun Limited was contracted to fabricate and install elevator cab interiors for First Canadian Place, a 72 floor office tower in Toronto, Ontario. The project consisted of (58 cabs) Passenger, 6 Service and 3 Parking Shuttle Elevators.

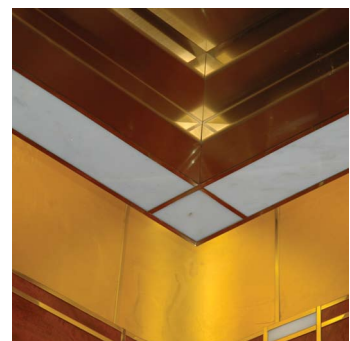

Highlights - Drop ceiling fabricated in two types of marble completed with polished brass inlays, back-lit with compact fluorescent lighting as well as recessed down lighting. Rear and side walls fabricated with "Bubinga" veneered wood paneling with polished brass inlays. Flooring made from custom water-jet cut shaped marble tiles completed with polished brass inlays. Doors clad in polished brass metal.
