

Timothy's World Coffee - Point of Sale Display

Location Toronto, Ontario
Designer / Architect Soheil Mosun Limited
Duration May 2006 - Jun 2006

Scope - Soheil Mosun Limited designed and fabricated (130) point of sale display units made of steel, aluminum and wood.

Highlights - The 6' tall freestanding unit has a base comprised of solid 1/2" steel which supports a steel center post. The steel center post is fitted with aluminum sleeves which allow various configurations of up to (5) stained and lacquered wood veneer shelves per node. All steel and aluminum components are powder coated. The top incorporates a pamphlet holder and a curved 8 1/2" x 11" sign holder.
