

April Hickox - TTC Public Art - Laminated Printed Glass - "Field"

Location Toronto, Ontario
Designer/Architect April Hickox
Duration Jun 2024 - Aug 2025

Scope - Soheil Mosun Limited was commissioned to manufacture design, supply and install this custom public art piece titled "Field", a photographic painting at the Toronto Transit Commission (TTC) Donlands subway station in Toronto's Danforth neighbourhood.

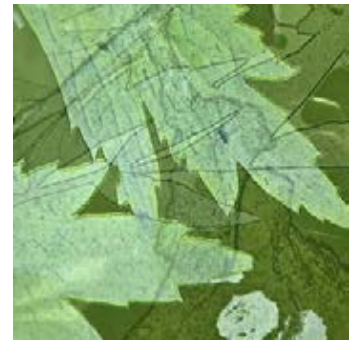

Highlights - The artwork "Field", an image comprised of flora, flowers, indigenous plants, birds and insects was printed in house on eight (8) 60" x 60" laminated tempered glass panels, each weighing approximately 240 lbs. These panels feature four mounting points, secured to the existing concrete wall using stainless steel threaded rods with a minimum embedment depth of 2.375 inches. The polished stainless steel stand-off bases and caps are attached to the threaded rods and create a level surface between the glass panels.

Artwork printed on laminated glass

Detail of polished stainless steel caps and stand off bases that secure the panels to the concrete wall.
